Maunwai sworn, knows not, but had heard from Kōkauleahi
 In an assembly at Lahaina consulting about the governorship of
 Maui in the room of Hoapili deeded, witness heard Kōkauleahi
 say, she had given two Pukoa to Elai from the King
 because of Elai's living *pūlūka* on Molokai, without any
 permanent place of residence she gave this for the
 subsistence of his wife & family for their benefit,
 Present in d. assembly Kanama, Kōpuna, & others.

A counter claim was sent in to Land commission for the
 fishpond of Pukoa during the time Land claims were
 collected, a counter claim was sent in by C. B. Andrews
 by direction of Wm. Richards Minister of Public Instru-
 tion, P. fish pond was affirmed to have been built by all
 of the people of Molokai - is the fruit of their ^{own} labor &
 toil in former days, when they were drafted & commanded
 by *lunas* & chiefs, from every point of Molokai & brought
 to that work, & they further affirm, that d. pond not having
 been built by the private labor of any one chief with his
paalima, but as afore said, by all the people of Molokai -
 it ought not, by right & justice, to be monopolized
 by any one chief or his or her favorite - Much less - that
 the fruit of their toil & sweat, should belong to one
 who had oppressed the people in his living at Luma Pukoa
 on Molokai, as Elai had oppressed them, & enriched him-
 self from the office he held over them. There is a large quantity
 of property on Molokai, *like* consisting of two patches & fish
 ponds dug & built with immense labor by the people, ^{all} *untitled*,
 which now is decided to belong to the *paakao* or school
 property, & for years, ever since Elai claimed & ruled as for
 the proceeds of such lands & ponds have gone to the *paakao*.
 It was the opinion of Wm. Richards & also of the present
 Min. of Pub. Instruction that d. fish pond of Pukoa & its
 proceeds, rightfully & in justice, belongs to d. *paakao* or
 school property. This statement written & subscribed by C. B. Andrews

Kuluwa Sept. 28. 1842

10106 - Hamuku appeared and confirmed the unimpaired testimony of all who agree that he fully agreed to the survey made by Mr. Bishop.

5182 - Immi sworn - Hamuku gave the ili of Naakau to Kalikelike, but he did not give him a certain part which is now contested. But I know that of late this contested part has been cultivated by Kalikelike, & he has paid taxes & worked poalima for it in the same manner as for the rest of his Kuluwa, & I treated the land of Kuluwa.

S. B. All the people present this day agree that this testimony is correct, & that Kalikelike should have the land, though Hamuku did not give it to him.

4934 - Kalikelike sworn - The two ilis of Kairo & Waioli have always been joined together under one person from the time of my ancestors to whom they belonged & have paid taxes together and not as separate ilis - they are now in possession of Hamuku the father-in-law of Kamae

Immi sworn testified that the above is correct Kahuana sworn - I know that at a certain time I know not when the ili of Waioli was under Paakai who recd. it from Paia, & Paia had it from Paalae - S. B. Witness too ignorant to testify. Crisp & Paakai did not go to poalima for Waioli, and did not cultivate it.

The people generally if not unimpairedly agree with the testimony of Kalikelike

Waikeahu Sept 20 1852
No. 5004 Hauka 2. From the word of all the old people

It seems probable that this is a real claim, but no one could be found who was present when it was recorded. It is said that Tioa wrote the claim, but he is now at Waimanalo on Oahu. Mahul Swain. I know the land of Ito in Waikeahu. It is one piece in the ill. of Oahu. Ito recd. it from his parents and ancient times, and has held it without dispute.

There are two hakonos.
It is bounded Maunaka by Kamepano's land
Maonei by Hauka 1's land Maunai by the sea
Malala by the Kahawai

Journal

The first thing I noticed when I stepped
 out of the plane was the crisp, cold air.
 It felt like a fresh blanket after a long
 journey. The ground below was a patchwork
 of fields and forests, stretching out as far
 as the eye could see. The sun was just
 starting to rise, painting the sky in soft
 shades of orange and pink. I took a deep
 breath, savoring the moment. This was
 my chance to see the world from a new
 perspective. I had heard so much about
 the beauty of this place, and now I was
 here. It was everything I needed. I
 felt a sense of peace and tranquility that
 I had never experienced before. The
 silence was perfect. I could hear the
 gentle rustle of leaves and the distant
 chirping of birds. It was a symphony of
 nature. I wanted to stay here forever.
 The world was so beautiful, so peaceful.
 I had found what I was looking for.
 This was my home.

The first part of the document
 discusses the general principles
 of the system and its
 application in various
 cases. It is found that
 the system is highly
 effective in most
 instances, but there are
 some cases where it
 does not work as well.
 This is due to the
 complexity of the
 system and the
 need for further
 research and
 development.

11

The second part of the document
 deals with the specific
 details of the system and
 the results of the
 experiments. It is shown
 that the system is capable
 of handling a wide
 range of cases and
 that the results are
 generally very good.
 However, there are some
 cases where the system
 fails to produce the
 desired results. This
 is due to the fact that
 the system is still in
 the early stages of
 development and
 needs further
 refinement.

12

The third part of the document
 discusses the future
 prospects of the system
 and the need for
 further research and
 development. It is
 concluded that the
 system has a great
 deal of potential and
 that it is worth
 continuing to work on
 it. It is hoped that
 the results of the
 experiments will be
 used to improve the
 system and to make
 it more useful in
 practice.

The first thing I noticed
 when I stepped out of the
 train was the fresh air.
 It felt like a breath of
 heaven after being stuck
 in the city for so long.
 The sun was shining
 brightly, and the birds
 were singing. It was
 a beautiful sight, and
 I felt like I had found
 a new world.

1007

The second thing I noticed
 was the smell of the
 flowers. It was a sweet
 scent that filled the air.
 I had never smelled
 anything like it before.
 The flowers were in
 full bloom, and they
 looked so beautiful.
 I had never seen
 anything like it before.
 The flowers were in
 full bloom, and they
 looked so beautiful.

1008

The third thing I noticed
 was the sound of the
 water. It was a gentle
 sound that lulled me
 to sleep. I had never
 heard anything like it
 before. The water was
 so clear, and it looked
 so beautiful. I had
 never seen anything
 like it before. The
 water was so clear, and
 it looked so beautiful.

1009

The fourth thing I noticed
 was the taste of the
 food. It was a delicious
 taste that made me
 want to eat more. I
 had never tasted
 anything like it before.
 The food was so good,
 and it tasted so fresh.
 I had never eaten
 anything like it before.
 The food was so good,
 and it tasted so fresh.

1010

The fifth thing I noticed
 was the feeling of the
 sun. It was a warm
 feeling that made me
 feel like I was in
 heaven. I had never
 felt anything like it
 before. The sun was

 so good. I had never
 felt anything like it

Dear Mother
I received your kind letter of the 10th and was
glad to hear from you and to hear that you
were all well. I am well at present and
hope these few lines will find you all the same.
I have not much news to write at present.
I am still in the same place and doing
the same work as before. I have not
heard from you for some time and
I have not time to write you more
at present. I will write you again
when I have time. I love you all
very much and hope to see you
soon. I am your affectionate son

1. The first part of the manuscript is a list of names and dates, written in a cursive hand. The text is somewhat faded and difficult to read, but appears to be a chronological record.

2
1800

2. The second part of the manuscript continues the list of names and dates, with some entries appearing to be more detailed than the first part. The handwriting remains consistent.

3
1801

3. The third part of the manuscript shows further entries, including what looks like a date '1802' and several names. The text is dense and fills most of the page.

4
1802

4. The fourth part of the manuscript contains more entries, with some lines that are more clearly legible than others. The overall structure seems to be a continuous list.

5
1803

5. The fifth and final part of the manuscript shows the last few entries, including a date '1804' and several names. The handwriting is consistent with the rest of the document.

The first thing I noticed when I stepped out of the car was the cold. It was a sharp contrast to the warm blanket I had been sitting under. The air smelled like pine and snow, a familiar scent that made me feel at home. I took a deep breath and smiled. This was exactly what I needed.

The snow was falling softly, creating a peaceful atmosphere. I had heard that the winter here was magical, and now I was seeing it for myself. The trees were covered in a thick layer of white, and the ground was a soft, powdery carpet. It was a beautiful sight, and I couldn't help but feel a sense of wonder.
